I bought this and some of the others to help encourage my 6 year old to read. He loves superheros and of course TEEN TITANS GO! While the words are somewhat on par with a K/1st grade reading level the actual font was kind of small and the comic style made it hard for him to read. I think when he gets a little bit more use to reading these might work for him but right now they are too much. I thought the stories were super cute though and as an adult obviously I didn't have any problems reading and following along with the comic style. Maybe not for super beginner readers but slight more advanced.

I ordered this book for my seven year old son at his request. He absolutely loves the book and I love that he is enjoying reading quietly. When he finally put the book down after reading 86 pages

straight I glanced through it and was impressed. The writing is clever and witty. At one point blue beetle is standing next to The Beatles. I thought that was cute. I will definitely be ordering more of these.

My son found this at a local comic book and begged for me to buy it, but I made him wait so I could purchase it for him through (cheaper). He is not a natural reader, but books like this has spurred his interest to read, getting him to read chapter books that no longer have pictures. I'd highly recommend this book for kids who struggle with reading and would rather run outside than read.

As a passionate comic book fan, I wanted to find my eight-year-old niece some great starter comics to get her hooked, as well. These books are fantastic. They are extremely well-written, and they use even the villains in such a fun, creative way. The characters are geared toward her age group, and the female uniforms are very age-friendly. She is now begging for the rest of the series for Christmas, and I am happy to oblige.

I love these comic style books. I have a 4 year old and a 6 year old who love superheroes. This brings it down to their level and has no violence! The kids are cute and funny! Both ages find them very funny and my 6 year old will read them to his brother.

I bought this to introduce my young cousin to the world of comic books, and DC Comics heroes. He and his mother howled with laughter. He asked if I would send more? Definitely!!

My kiddos love the tiny titans series. It's preschool/young grade school appropriate and engaging for young readers that may be struggling with traditional books.

My 5 year old son is addicted. The only superhero comics I could find that were appropriate for 4 and 5 year olds (no violent or dark themes)
