Great idea for a crafty child. Kit does not come with everything needed to make all of the crafts, but extra supplies needed are everyday items. My daughter enjoys making the accessories more than playing with the doll.

This was my 8-yo daughter's favorite xmas present. She's spent hours making checker boards, wall papering a box for a doll house, making gift boxes, and picture frames for her dolls. For her birthday, she's asking for the other craft books in this series.

I purchased this item for my daughter as a gift. She loved it. It is fun to have more hands on activities for children to do for and with their dolls.

My 10 year old daughter loves American Girl dolls & has even more fun creating doll rooms for her

dolls. This book had a lot of good craft ideas & includes plenty of "pre-cut" (need to pop the pieces out of the book pages) items. It kept her occupied for a few days over summer vacation. She enjoyed them by herself & did some with a friend.

I bought my granddaughter two AG craft sets for her 9th birthday but this was unquestionably the best. Just watching her look through things was priceless. I thought she'd be enthralled with the hair styling set which included a few hair 'tools' and a book of idea for different styles, but she took that in in seconds and moved to this set. The set includes many papers printed for various crafts from making cards to wallpaper. I was surprised that she looked over each and every sheet envisioning a finished product. I could see those little wheels turning as she decided how she would use each one. She's a very practical child and not above being starkly honest about gifts :). She's learned to be gracious to the giver, but her level of interest is still apparent. This set offered numerous ideas plus room for her own interpretation. If the suggested use didn't appeal to her, she said so, but then considered another use she'd enjoy. Bottom line: there are so many different things suggested there's plenty of room for personal preferences. When looking through the kit choices on with her earlier to get an idea of what she favored this didn't appear as a standout so I was taking a chance, but I really struck gold. While it seems a fairly simple set, all the pretty printed papers offer plenty of ideas and spurred her imagination as well. So far the hands down favorite set is the school set, but this is her next favorite.

My 6-year-old daughter saw this American Girl Doll Crafts kit at Barnes & Noble and had to have it. She was using her own hard-earned money to buy it, and it was way cheaper at , so I taught her lessons in patience and thrift and went the route. No wonder it was cheaperâthe order I received included only the paperback book...there was no craft kit included!! The book is completely worthless without the kit. My daughter was very upset at the âbargainâ she received. As it turns out, the lesson was on me âlearn to read the fine printâ or so I thought. I went back to review my order and the back cover depicted in the âLOOK INSIDE!â images clearly implies that the purchase should have come with the kit. Whereâs the kit?

This is an amazing book. It is great for girls who love crafts and American girls. Although it doesn't have everything you need in the kit you will most likely have those things lying around your house. You can make many different crafts including a clock, a calendar, a game of checkers, a mirror, a bulletin board, a tissue box, a tea box, shadow boxes, and Much Much more. I am very glad that I

bought this book. It is a MUST buy definitely!!!!!!!!!!!!!!!!!!!!!! Please at LEAST consider putting this on your shopping list. Great Job, AG!

When it comes to American Girl dolls my daughter is more interested in creating their world than playing with them. This is perfect for her - she could spend hours cutting and pasting, making all sorts of tiny things for the dolls to use or to decorate their "rooms."
