Customer Reviews

Book is great. It has 13 mazes to complete both forward and backward. All are streets on which you drive paper cars. Each maze is different - city, neighborhood, zoo, golf course, rural, mountains, etc. Not only do you complete the maze, but you are also challenged to find objects in the maze that begin with a certain letter, and you are asked to find certain hidden letters on each page, plus more challenges. My 5 year old son loves to trace through the maze and find the objects (especially the different cars and trucks). He spends hours with it and hasn't tired of it yet. The mazes are very detailed and illustrated beautifully.

We have another one of her books, *Blimps*, which we enjoy. So my son picked this one out at the

library. We had a lot of fun with it. We sat for almost half an hour looking at the pictures. My son had fun showing me things he found on his own. We went every maze and traced it with out fingers. Then we had to look for the letters and pictures that he liked. This was very helpful, since he's just learning his letters.Great book!

My 4 year old son loves mazes and maps, so this book is a real hit with him. We did several other Roxie Munroe maze books before -all intricately detailed, fun and fascinating - Mazescapes is right in line with the others and does not disappoint. The illustrations are wonderful, there's so much for him to look at and discover even after he has completed the maze. Good fun!

My son has spent hours with this book. He loves the intricate drawings and sees something new everytime he re-visits it. A "must have!"
