Customer Reviews

If you're a fan of Justin Bieber, you probably know there are already other books out there about him, including unauthorized biographies. This book, however, is designed and written with Bieber's cooperation and noted as being written "by Justin Bieber." There are some helpful tips about this book which you should know before you purchase it. If you collect anything and everything related to Bieber, you'll want to pay close attention to the part about maintaining the book's value.¹ First of all, the book contains exclusive photos and a free poster. But if you don't read the inside cover of the book (bottom right) carefully...you might spend time looking for that poster inside the book. But it

turns out it is printed behind the cover. If you want to put up the poster, you have to remove the cover and pin up the poster which is on the back of the cover.² For those of you who get a FIRST edition of the book, you should know that removing the cover and pinning it to your wall could reduce the value of your book as a collectible. But if you don't care about that and want the poster pasted on a wall, inside a locker, etc....then go for it! Also, maybe it is just the first editions that have this issue but the front of the cover (the part with the words Justin Bieber on it, in bold purple letters) does show through to the back... but only if you are looking at it in bright light. It won't be visible when put on a wall. If you want to have a collectible copy, you might want to buy two books. Leave the cover on the (hopefully) FIRST edition and pin the poster from the second book on your wall or wherever you want it. It all depends on how much you want the book to retain its value (assuming Bieber retains his popularity).
