## Customer Reviews

I am an officer, and was thrilled to find a book featuring a female police officer. In one week it became my niece's favorite book, having me read it over and over to her. She recognized the pictures highlighting special words, and even recognizes the same things in real life. I thought her mom would scream when my niece's favorite word became "badge", and she pointed out every emergency vehicle she saw out on the roads when they went for drives. This book helped my niece become much more verbal, and helps show her that female officers are positive role models, just like me.

Purchased for my 5 year old son for christmas. My husband and I both work in law enforcement and it is my son's dream to do the same...he loves this book, he carries it around rolled up in his duty belt.

Joey's Aunt Ann is a police officer and through her nephew's eyes the reader learns about a police officer's day, tools of the trade and all the different kinds of police officers there are. We even meet Joey's favorite police dog! During Aunt Ann's day, she rescues a lost boy and even catches a bear who escaped from the zoo! The photographs are excellent, and the review of terminology with a picture dictionary is proof of the careful preparation that went into this volume.

This is a great easy reader with a simple storyline explaining life as a police officer. I bought this book for my 4-year-old son, as his dad is in the process of becoming a police officer. I love that it gives him a glimpse into what police officers do each day. The pictures are bright and engaging and the storyline, while simple (as with most easy readers) is still interesting. The DK brand doesn't disappoint here - another good product, as I have come to expect.

My 2 year old is a huge fan of police and firefighters, but he especially loves motorcycle police. It is very hard to find any toys or books with motorcycle cops. I ordered this book hoping it would have at least a picture of one, and I wasn't disappointed! It briefly tells about and includes pictures for different kinds of police, including police on motorcycles, bikes and horses. The rest of the book is good, too. If you have a kid that's into police, this book would be a great addition to your collection!

I bought this book in bulk to pass out to twenty kindergarten kids following a presentation I did about being a police officer. The writing is perfect for their level, and I think that the kids really like the color photos.

I got this for my son. We are all police officers so he is all about police stuff. He really liked the book and it gave him a little insight (on a young child's level) of what we do on a shift.

They're simple. They're informative. They're cheap. If your child is too young to read, they're perfectly good read-aloud books. What more can you ask for when stocking your kid's library? This book features a female police officer (a nice touch) going about her (mostly uneventful) daily routine. She does some emergency traffic direction, tells her nephew about the various ways cops get around, helps a kid get home, and captures an escaped bear. The last one is a little unrealistic - I mean, how often do bears escape from the zoo, anyway? - but it's well-written enough that I can overlook that part.
