Customer Reviews

Unlike the half-wits who are commenting on the Constitution, Declaration of Independence, and the Articles of Confederation, I will be commenting on the publishers (Wilder Publications & A&D Publishing) compilation of the documents. DO NOT buy this publication. The publisher inserted "notes" all over the place. I don't know if it was an accident in the copying of the documents from one format to another but it detracts from the text. And, this is absolutely brilliant, it inserted the following disclaimer: "This book is a product of its time and does not reflect the same values as it would if it were written today..." Really Wilder! that is your view of the Declaration of Independence and the United States Constitution.

When I refer to the awful editing, I am, of course, not talking about the archaic spelling of some of the words which should remain spelled like they were in the original documents, I am referring to words like "note," or "history" that were sprinkled about in The Constitution. Article 6 of the Constitution appears twice in differing fonts. It is a nightmare of editorial proportions. Additionally on the copyright page there is a disclaimer telling us about how if the documents were written today, they would be more politically correct, and blah-blah (others have commented so I won't quote the bit.) I would have only given this one star, but it contained a copy of The Articles of Confederation, as well as The Constitution and The Declaration of Independence, so, for convenience-sake I'm bumping it to 2 stars. Awful, awful editing...totally unnecessary and frankly insulting disclaimer. Find another publisher if you wish to buy these documents.

Disclaimer from the publisher;"This book is a product of its time and does not reflect the same values as it would if it were written today. Parents might wish to discuss with their children how views on race, gender, sexuality, ethnicity, and interpersonal relations have changed since this book was written before allowing them to read this classic work."Buy a copy of the Constitution from another publisher!

If I had known the disclaimer was in the front of this book, warning people about the contents, I would never have purchased it. If you love our country and the laws on which it is based, you should find another source for these papers.

This Constitution is published by Wilder Publications. The copyright page says this:"This book is a product of its time and does not reflect the same values as it would if it were written today. Parents might wish to discuss with their children how views on race, gender, sexuality, ethnicity, and interpersonal relations have changed since this book was written before allowing them to read this classic work."I don't know what to make of that. If it says what I think it says I think I want a Constitution from another publisher! That statement seems to say that the Publisher is telling us how to read it! They are saying that it's principles couldn't possibly mean the same thing today! What arrogance! I hope they don't mean these things but how can I not come to these conclusions?

Read no further than this quote on page 3: ' "This book is a product of its time and does not reflect the same values as it would if it were written today..."SERIOUSLY? Are the publishers at Wilder

REALLY THAT INCOMPETENT???! I wouldn't take a copy of this publication if you GAVE IT TO ME.
DON'T BUY THIS BOOK!!!

I find it peculiar that this publisher felt it necessary to include a disclaimer in the front pages warning parents that they may want to explain to their children how the doc's. are a product of their time and would not reflect the same values as if written today. Especially in the areas of race, gender, sexuality, ethnicity and inter personal relationships. Also, excessive notations are questionable. Much better products available at national center for constitutional studies or cato. Infowars, because there's a war on for your mind!

I have always been looking for a reference copy of the U.S. Consitution to carry with me. For me this volume is that reference. This volume is compact, well laid out, and contains no unwanted extraneous materials.
