Customer Reviews

This sturdy book keeps my 18-month-old granddaughter occupied for quite a while, pressing the buttons to hear the animals. She enjoys even the elephant, but spends the most time with the monkey perhaps because I commented that I liked its sound. The simple descriptions accompanying the pictures are the right length to keep her attention also. The book arrived with the back scratched and the sounds not functioning, so I returned it and got another. The 2nd book works perfectly. I really like that she can hear the sounds of animals that she has in pictures in other books, and that she learns animals besides farm animals and pets.

Pretty good sounds, and unlike some of the sound books out there, this one has buttons that are pretty easy for young ones to push. So far it has held up well, even with a 20-month old punching the buttons. Might be a little loud, but kids are loud - it goes with the territory.

My baby loves this book, don't believe the hogwash about loud noises or weird noises,,, just enjoy

this book with your baby!!!Beautiful and bright pictures, nice sounds and educational.I love this book and so does my baby.

We have another book similar to this one. My daughter loves the sounds it makes, and roars along with the tiger. She figured out what button to push for each page. It's a lot of fun to hear her "read" (babble out loud and smack the buttons)

Great book for my 2 grandsons! They are ages 12 months and 20 months and they really enjoyed the story and the sounds. They also were able to turn the pages themselves because of the page tabs at the top of each page. I also bought some of the the Eric Carle books, but we all like this brand better.

my toddler was scared of this. the sounds are realistic...a little too realistic for a toddler. may be better for a child not a toddler

The sounds for the animals isn't the best. The giraffe making the leaf chewing noise isn't what I was expecting, and it isn't the best thrill for a kid. But other than that, the colors and quality of the book is great.

My daughter loves this book! Except for the elephant button, it's kinda loud and it usually scares her whenever I press it. I tend to avoid it but other than that -Great book.
