Customer Reviews

Absolutely wonderful presentation of an artist for kids ages 6-9. Short enough to keep a child's attention without boring him/her, fun illustrations, simple, but very informative presentation of the historical details at the child's level.

I include these art books in my art kits and art lessons. They are great for students of all ages and for those school districts with Accelerated Reading---these are AR books!

Great! I love all the good information and pictures! Very concise information! Very good classroom book for students. Thank you! Fast delivery too!

My students loved this story. It is better for third through sixth grade but the primary students liked the art work.

Love these books
