Michael Vey 5: Storm Of Lightning

Synopsis

Michael, Taylor, Ostin, and the rest of the Electroclan go on their most dangerous mission yet as the thrilling action continues in this electrifying fifth installment of the New York Times bestselling series! The Electroclan is on the run. The resistance movement has been compromised. The safe house has been destroyed. The voice is in hiding, and they have no idea if their families are alive or dead. Meanwhile, the Elgen are on the move. They've launched a new assault on the small island nation of Tuvalu. If they are successful, it will be the first domino to fall as part of Hatch's master plan to take over the rest of the world. But cracks are beginning to appear in the ranks of the Elgen elite, and while Hatch still rules with an iron fist, there are signs of dissent. If the Elgen are beginning to turn against each other, can the Electroclan find an opportunity to use this to their advantage? Or is it just a trap to destroy them once and for all? The stakes have never been higher, and Michael and his friends are about to be tested in ways they never imagined.

Book Information

Lexile Measure: 600 (What's this?)

Series: Michael Vey (Book 5)

Paperback: 288 pages

Publisher: Simon Pulse/Mercury Ink; Reprint edition (May 3, 2016)

Customer Reviews

A Review of Michael Vey 5: Storm of Lightning The book picks up right after the last (4 of 7), with Michael Vey and the Electroclan on the run after the Eglen find their safe house and destroy every

trace of it. They then high-tail it to Mexico to find another safe haven. Meanwhile, Taylor's mother has been arrested on heroin charges, in correlation with her finding and aiding the Electroclan in their quest to destroy the Eglen and prevent any world domination schemes they have up their sleeves. We are also reintroduced to the electric children who side with Hatch and see their relationship decay into one of mistrust and sabotage. The story overall is rather good as a continuation of the series. I enjoyed the Mrs. Ridley subplot, as it shows just how far Hatch will go to get the children. The characters are as fresh as they've been previously, with new characters stories unfolding, and old ones arcing to new heights with character development. The scenario they are in is somewhat realistic, but the characters are like real people. When I read a book, I try to imagine it cinematically, and if it is good I can see it. This book would work really well as a film, or even a TV show. When I say the scenario is somewhat realistic, this included the setting. It ranges from large size Idaho town (comparable to a normal small town in any other state, such as Marquette in Michigan) to Mexico suburbia and island nations. While each is a very different setting, I can grasp the culture and tertiary characters associated from location to location. While the science part is obviously fictitious, the attention to detail in explanation on why the abilities surfaced and how they interact with the environment.
