Age Range: 4 - 8 years

Grade Level: Preschool - 3

## Customer Reviews

If you have a little Shopkin fan at home, it may not matter what you actually get them as long as there are visible Shopkins on there! This book should have been a 5, but some of the hidden Shopkins were just ridiculous. Perhaps 1/10th or a bit of an eye showing and that's it! Now, I'm all for challenging my child (she's a smart lil 3 year old that did find most of these), but it seems a bit extreme. Some of the pages are particularly bad like the milk and eggs page where tiny portions (not even eyes!) are visible behind other items. The "limited edition" Shopkins are also hidden in a pretty annoying fashion (small pieces showing only). What I ended up doing for fun was spotting a Shopkin on my own and asking the little one to find it since I could look out for a more visible (i.e. more than half not covered) one. Can vary this depending on your child's ability. So perhaps this

book is for slightly older Shopkins fans, but overall pretty poor. I'd rather have the hidden Shopkins camouflaged in patterns, etc. (like other seek and find books) as opposed to mostly obscured! The scratch and sniff stickers were OK.

This is a birthday present for my daughter, who is a diehard Shopkins fan. I'm sure she'll love it. My only complain...whoever put this book into the envelope should have put a "DO NOT BEND" sticker on it. Maybe then my mail carrier wouldn't have folded it in half and bent the spine of the book. Currently, I have the book sitting under a heavy briefcase in hope that it will flatten out before her birthday party this week.

My 3 year old son is OBSESSED with Shopkins! He also loves Seek & Find games and books so I knew that this would be a hit! He absolutely loves it! He loves finding all the hidden Shopkins but also naming all the ones that are in plain sight! We love to look at this book together :) So much fun!-As a wife and as a mom of 3 kids, I spend a lot of time shopping for deals on the best products out there for my family. It's important to me that if we're spending our hard earned money that we get a top notch product in return. I often rely on the reviews and opinions of others when contemplating purchasing a new product that I haven't tried before myself. Because of that, any products that I buy (whether on or from a 3rd party) I always make sure to leave a detailed review of the product to help others when selecting items to purchase, as well. My family tests these products fully before forming a solid opinion and writing a review. When I write a review, I keep in mind that those reading are also looking for honesty about the product and want an unbiased opinion to go by. If my review has been helpful to you, please give me a "Yes" vote on my review. Thank you!

Both girls loved the book. It was for four year old birthday. Her and her 8 year old sister finished this in a few night and enjoyed using the stickers. Since they used the stickers to indicate which items were found, they didn't have to mark up the book and can use it again. I would like to find more of these.

My granddaughter loves Shopkins and she was very happy to get this book. She is 5 years old, it is something for her and her Mom worked on together. It is bright, colorful, large print and has stickers inside. I was very pleased with the price I paid and what I received. She said if I find any more of these Shopkins books she wants me to get them for her.

Better for older kids. If your child is younger you will need to help them. The shopkins are a little hard to find for younger kids on their own. But still a good seek and find for the shopkins fan. Your child will love yelling out their names as they find them. Very cute.

Not our favorite seek and find book. The Shopkins are really hard to find - often you can only see a tiny part of their body (their eyes, for instance). If your kid is younger than 7-8, you'll definitely need to help them.

what a cute little seek and find book. the seek and finds are such a hit in my house for everyone of all ages. this dosent have many pages...i think 24? but for the price its worth it, and of course because its the shopkins.
