I'm A Bulldozer (Little Golden Book)

Synopsis

Truck-loving preschoolers will love this charming, busy bulldozer hero! *Push* • McCallahan is a hardworking bulldozer who's on the construction site before the other big work machines have had their first cup of morning diesel. After he's finished moving dirt and rock, it's off to build a road, help fight fires, and pull up some tree stumps at the farm! It's all in a day's work for this tough-but-lovable earthmover, brought to life by popular Little Golden Book illustrator Bob Staake.

I bought this book for my six-year-old son for two very good reasons:1. We have the misfortune of living at the top of the street where a one-year road construction project has been going on for over three years; and2. Bob Staake's illustrations.For over half of my little boy's life, we been driving past road construction vehicles, sometimes standard yellow, sometimes shockingly pink -- most of them just parked along the side of the road -- just to get from our stretch of road to another. He has learned the names of all of them, especially the bulldozer. Dennis Shealy did include some uses of the bulldozer that didn't include construction, so that made the book especially interesting.A few months after the construction began, my son discovered books illustrated or written and illustrated by Bob Staake. Staake quickly became my son's favorite illustrator. After almost three years, my son is a connoisseur of Staake's work and would know it anywhere. And he always says it's "beautiful". And my son is right.

I wanted to get my 3 year old nephew books that my sister and I enjoyed as a child and these were the first that popped into my mind. I am very pleased that the quality of Little Golden Books is still there! Looking forward to sharing this stories with him for years to come.

Our two year old grandson loves this book! He loves the pictures and the simple story line. Golden books are the best...great size for little hands...and just the right amount of story for a little ones attention span.

Like all Golden Books the text is simple and clear, with friendly illustrations. The illustrations in I'm a Bulldozer are definitely geared towards little boys and the book, is full of facts about what bulldozers do, presented in a clear and interesting format. My three year old loves this book. While the tone of the bulldozer in the very beginning of the book isn't one I care for it also isn't a tone that there is truly anything wrong with, and is very relatable to little boys, and it is only that first page. Just a heads up to other moms who might be a bit put off by that as well. All in all wonderful addition to a little boys library.

I really thought this book was lame. When I was a kid you couldn't go wrong with little golden books but nothing was invested in this. My 3 year old has no interest and I don't blame him. Still love though.

Probably one of the greatest literary reads of our day and age ... illustrations are impeccable and precise exceeding expectations. My three year-old grandson gives it a double thumbs up! !!

I have to admit this is one of my favorite books to read the grandsons. Cute story and it is short enough we can read it a couple of times which is what the boys like.

My 3 year old great grandson loves this book, we have read it over and over. He loves trains, trucks, and all heavy equipment machinery.
