This is one of my 1.5 year old's favorite bedtime books. While it is easily informative enough for a grade schooler, the photographs are simple, straightforward explanations make it a great read for a toddler as well. I even learned a bit about tractors and farming that I didn't know. Many other books like this are either pedantic or too advanced -- this and the other books in this series (we also have

Bulldozers and Fire Trucks) are really a nice balance of good information and good writing.

Has large pictures of tractors but the people in the pictures appear outdated. Surprised they even included a picture of how weeds are dealt with on organic farms instead of only mentioning the use of crop sprayers.

Our collection started from a school book order. My 5 year old twin boys adore these books. They are short, have simple language, and great photographs! Since my boys love tractors, this is their favorite!

Our theme for time with our 5 grandsons was "Mighty Machines"! They got to help their Dads drive the tractor, crawler and Mule. And...one just loved sitting on the tractor and pretending! Each family took home this book. Camp Kimwood was fun for all ages!

It's okay but wish it had more pages for a child to read and enjoy. Would not recommend this for older than two toddlers could have been better for content.

Wheel, wheel, and more wheels. Just what my grandson loves. Great information.

fun book for the kids with lots of facts and pictures.

My son and daughter both love the book.
