My 6 year old loves this series. She read the entire book on her own in one evening. She could not put the book down, she was so curious to know what was going to happen. Any book that can bring out that kind of enthusiasm in my little reader gets a 5 star rating. Since there are only 2 books in this series so far we will definitely be exploring other series from the Branches Book line.

My daughter (7) going into 2nd loves these books! I am so happy to have found branches books! It

really does help transition the kids into early chapter books. This story is really cute and my owl is just adorable. Again- this is one of my daughters favorite reads!! I would recommend this for any girl around her age who has parents tired of everything revolving around a princess....

My daughter, 6 years old/first grade, loves this book and this series. She loves the illustrations and loves the portions of the book where Eva writes in her journal. The story lines are easy to follow and age appropriate. The book is a chapter book. Would definitely recommend this book for other similar aged children.

A seven year-old turned me onto this series. As an educator, I have to say that I love this series! These stories are perfect for newly independent readers. The adorable illustrations break the short chapters into manageable chunks. The fun and exciting stories keep young readers engaged. I would recommend these books for 7-8 year-olds to read independently, and for parents to read to younger children. In this second installment of the Owl diaries, Eva becomes convinced that she saw a ghost after her teacher tells a scary story at school one night. No one believes her, though! Except for her best friend, of course. Others doubt Eva so much that she begins to doubt herself. In order to prove the ghost exists, Eva writes, distributes, collects and reviews surveys. A beautiful early introduction to the scientific method! In the end, the entire class goes on a ghost hunt and discovers the true identity of the ghost. The ghost, or should I say ghosts, turn out to be a family of snowy owls who are moving to the neighborhood.

My daughter is in 1st grade but is an advanced reader of 2nd and 3rd grade level. The problem I find is that she needs chapter books for her reading skills but still wants pictures because she is only 6 years old. She love these books because they fit both bills for her. Cute pictures with more advanced reading.

My daughter has recently learned how to read and she is in love with these our diary books they're only a few words that I need to help her with the pictures on each page are beautiful and interesting, and she really gets into the storyline. I would recommend these books for any little kindergarten girl who things hours are adorable and knows that she loves reading and wants to further her reading.

My daughter, a rising 1st grader, loves this series. The illustrations, storyline, and sweet journal writing style all capture and hold her interest.

I love this series! I teach 1st grade and love having these in my classroom library. These are great books because they keep kids engaged. As a parent, I love these because they are good for kids who have short attention spans. My daughter has ADD and struggles with stamina while reading. These books work for her because she can focus on one speech bubble at a time, which keeps her focused.
