# Panda Bear, Panda Bear, What Do You See? Board Book

## Synopsis

The third book in the bestselling Bear series, now in board book format. Thirty-five years after their first groundbreaking collaboration, the creators of *Brown Bear, Brown Bear, What Do You See?* and *Polar Bear, Polar Bear, What Do You Hear?* reunited to address the important topic of animal conservation. A Bald Eagle soars, a Spider Monkey swings, a Macaroni Penguin struts, and a Red Wolf sneaks through Bill Martin Jr's rhythmic text and Eric Carle's vibrant images, and all are watched over by our best hope for the future—a dreaming child. We are delighted to offer Bill Martin Jr and Eric Carle's beloved tribute to endangered animals in a board book edition.

## Customer Reviews

I love children's books by Bill Martin and Eric Carle. I really love reading "Brown Bear, Brown Bear, What Do You See?" and "Polar Bear, Polar Bear, What Do You Hear?" to my preschoolers and when I heard there was a new book, I had to find a copy and buy it. I can't wait to read this book to my class along with the other two books. It is soooo adorable! The pictures are cute and easy for the children to remember.

This book is similar to the original Brown Bear book, with illustrations of panda bear, bald eagle,

water buffalo, spider monkey, green sea turtle, macaroni penguin, sea lion, red wolf, whooping crane, black panther, and moon-faced dreaming child. The illustrations are beautiful--Carle's signature watercolor-collage style. While Brown Bear's illustrations show each animal against stark white backgrounds, Panda Bear's illustrations feature them against bold backgrounds. (My sensitive younger toddler found the red wolf and the black panther illustrations a little scary, so we skip those pages for now.) Although this book doesn't lend itself to teaching basic colors and animal sounds the way that the original does, it is a good way to teach the concept of endangered species to younger children. Overall, a great companion to a classic!

It's a nice concept and most kids will love the words, different animals and the concept of going from one animal to another. Panda Bear was really written because Brown Bear established such a terrific template. In other words it's a sequel. Like most sequels it doesn't quite measure up. Kids will still enjoy the colorful pictures, sounds of words and guessing what comes next in the story. Perhaps that's all they need. Sometimes the educational aspect is important and sometimes kids just need entertainment. This is entertaining for little ones and it's a simple enough story so that little ones can start pretending to read and feel more grown up.

I had high hopes for this, since the Brown Bear sliding book is currently my son's favorite! But the rhymes and the animals are out of whack - by the time I've said "macaroni penguin, macaroni penguin, what do you see?" my son has already crawled off to play with something else. Plus, the ending, while sweet in its own way, is not interesting at all to my kiddo. He loved seeing the children at the end of the original book.

To say my 9 month old loves this book would be an understatement! She gets so excited when she sees you pull it out. It's beautifully illustrated and we love the fact that it focuses on endangered animals. Love, love, love!!

My son and I LOVE this series (brown bear, Polar bear, Panda bear, baby bear). The slide and find version is a very smart idea, which baby can see the next animal described in each answer. We got both brown bear and Panda bear in slide and find; and Polar bear in sound book. I hope that the baby bear will come in this version, too. Finally, the book is much bigger than I thought. It may be a little heavy for baby, but otherwise, baby will enjoy much bigger pictures than in the original version! I highly recommend the slide and find than the original one

Great board book in Eric Carle's collection. I bought this for a panda themed baby shower. It was a great book to add to the other panda -themed items I bought for the shower for my sister in law. I can't wait to read this to my new niece!!!!The book arrived quickly from the seller, and it was in perfect condition.

My son's pre-school teacher read this to my son and he couldn't stop repeating the words all the way home.... panda bear, panda what do you see.. I end up buying 2 other Bill Martin/Eric Carle books the same day. This is a must have for little ones, it teaches them about animals and their senses!
