## Customer Reviews

As you would expect from Audubon, this calendar has beautiful views of natural scenes. Whether it is the Canadian Rockies, New Hampshire's White Mountains or Utah's Zion National Park, the images are gorgeous. Also, as a bonus on the bottom of each page are 2 animals that would be typically found in the area pictured. There is also an informational paragraph about the location and its importance. This is a great calendar that livens up any room

This is a lovely Calander, well proportioned, with beautiful stunning nature photos. Plus when you buy it, part of the proceeds go to fighting the big corpportate fossil fuel industry and their corrupt greedy propaganda that would rather lie about the threat of global warming and CO2 emmissions by calling it a hoax through a newly corrupt Political part and surrogate news serve - while deliberately destroying our economy and more importantly the future of our children and planet. By the way, The Green Peace Calander is also very nice, and is just a little less wide and longer. I prefer the proportion of this calander a little more myself.

I have purchased the Audubon Nature Calendars for many years, and they have always been excellent with beautiful pictures, as the 2015 calendar is!

As expected, wonderful Nature photography. Large size. Just 3 stars because the day numbers on the calendar are NOT bold and dark and can't be seen well at a distance. Seems a calendar this size would be easily readable. Will not be buying this brand calendar again.

A gift for my elderly parents. This is a sturdy/beautiful calendar to keep their many appointments in order. Great, sturdy calendar. Pictures of places they've never seen.

Arrived on time and well packaged. Each month has a beautiful full page picture with two smaller pictures beneath the calendar grid. A small paragraph explains the scenery should you want to travel there! I absolutely love the quality of the images.

This year's calendar has some really over-high-contrast pictures (for example January!!). They have improved it marginally by including dates from the previous month lead in ..e.g. Jan to Feb, in light font. The holiday information needs to be slightly larger and darker to see from a couple of feet.

If you love great looking nature photography, then you will love the National Audubon Society's wall calendar. The proceeds from the sale of these items goes towards a group that is outstanding in the conservation of birds, other wildlife and healthy ecosystems dating back to 1905. Moreover, it looks great on the wall in your home or office.
