Starry Nights 2017: Astral Landscape Photography By Jack Fusco: 16-Month Calendar September 2016 Through December 2017

Synopsis

From Arizona to Maine and Canada to Iceland, photographer Jack Fusco captures the majesty of the night sky as it rests above rivers, fields, mountains and the sea. Whether hiking to the tops of canyons for the best framing, braving single-digit temperatures to wait for the perfect position of heavenly bodies or racing across islands to capture brilliant explosions of Northern lights, Fusco brings his artistic sensibilities, master planning and technological expertise together to create awe-inspiring images.

Customer Reviews

Beautiful calendar that includes lunar cycles, solstices, and major national holidays from UK, US, Canada, and Australia. Only complaint is that the Sep - Dec 2015 is "at a glance" style all on one page, which would have been nice to know prior to purchasing. Very glad I have it anyway, though.

disclaimer - I have not purchased this calendar. I tracked this down to the calendars.com website and it is with regret that I provide the information that astronomical events are not included on the calendar date cells beyond the phases of the moon. I still may pick this up as an extra calendar because the images are great, but with respect I would like to suggest adding more astronomical highlights next year such as meteor showers, conjunctions, eclipses, lunar perigee, apogee, etc.

Came in super fast, gorgeous pictures and feels very high quality. My only complaint is that it advertised as 2015-2016. And only shows the last 4 months of 2015 and it's so small you can't write

in those ones. But all of 2016 is very pretty and spacious!

Returning this, I needed 16 months full pages, not the first "4" months tiny on a cover page and next years full pages. I should've read all the reviews before I purchased. VERY DECEIVED and disappointed.

Just beautiful is how to describe this calendar. Good quality not thin like some calendars. Enough space to write in your appointments or birthdays. I highly recommend this calendar. I was given this calendar from Quarto Knows in return for an honest review.

Don't advertise that there are "Bonus!" months or that this is a 16 month calendar. It is a full 12 month 2017 calendar with one page that fits 4 tiny months on one page....annoying. This is NOT an actual 16 month calendar.

The pictures are beautiful! I love it!!

I bought this for my classroom. Many students have commented on it. They love seeing the new pictures each month, and have asked if they can hang the pictures once each month has passed.
