Customer Reviews

Purchased this for my 7 year old daughter and she LOVES it. Also purchased the Beautiful Doodles which she loves as well. I got the Boys Doodle for my 8 year nephew and he is really enjoying that. I think these are an excellent series. I took the books to Staples and had them spiral bound....and idea I got from another reviewer. Adds about \$3-4 to the cost of the book, but these are nice thick books and they really make a nice keepsake. I'd give this a 5 star but the binding makes it a 4. They should sell these already spiral bound. I purchased Beautiful Doodles for another relative, a 5 year old girl and I'm sure she'll love it. I highly recommend this series for any kid that likes to draw even a little bit! I plan on purchasing more as birthday gifts.

My 8 year old received this book as a gift and it is fantastic. It really challenges you to use your

imagination. There are so many ideas that are offered for the child to complete. I wouldn't recommend for under 7, as they might not get the full benefit.

The illustrations are very nice and I know I will have so much fun finishing them all. The pages are thick so one side doesn't show through the other. I wish it was spiral bound though.

This is the fourth doodle book I have given for a birthday gift. My daughter, age 10, had given one to her little friends because she brought it to school and all were interested in where she got it. I add some inexpensive tools, pens, etc. and it's a great gift. My daughter prefers something easier to sketch w/so last time I got pencils and charcoal type pencils and erasers. Crayons wouldn't work well.

I bought this book for my great neices ages 7,8 & 9. They loved them! I would recommend this book to any young person who likes to draw and be creative.

Just what she needed. I have a 9 year old niece, who stays with her uncle and his kids after school, everyday. She was getting bored and started drawing and doodling, except she was running out of paper and ideas. This was perfect. She loves it and all of her artwork is located in one place and gives her ideas for days when she has blank paper to spare. I even collaborated with her on a few of them. Yes there are extremely fun and addicting. Good with crayons, colored pencils, and markers. Good thick pages.

I bought this used and used it was scribbles all over- glad I only paid \$.01 my gran hasn't looked at it once, so I wait for quiet time and I'll put it under her nose. Maybe 12 yo is too old for this... I don't know-but if your child is already into doodling this may be perfect.

My daughter loves to draw. I was searching for drawing books when I came across these doodle books. I bought her a few different titles for christmas along with a new set of gel pens. She has spent many hours drawing and doodling in these books. I like how these books give a child a start to a picture and then allows a child's imagination to finish it. I did take the books I purchased to an office supply store and had them spiral bound. That made it much easier for my daughter to lay the pages flat to draw.
