I bought a few of these "I Can Read!" for my 5yo and she can't get enough of them. She had been working on kindergarten sight words and was reading other books of the sort, so I figured she would jump right into these. For the most part I was right. There were a few words here and there that she would need help with, but for the most part she was reading away. If you little one is doing well on basic sight words they should be able to hit the ground running with these. I would also guess you could use them as an interesting way to practice the sight words.

My 5-year-old daughter loves the Biscuit series of books and though we got the series last year, she still takes them off the shelf and reads them by herself and even to me, without being asked! Now, that's a winning series to me as through these two years since I began to teach her reading skills, we've gone through many different readers by various publishers (many of which I've reviewed in terms of how helpful/effective they've been) and only certain series have appealed to her. Being a visual learner, colorful and interesting illustrations are important, but at the same time they should not detract from the reading itself. The Biscuit series of books has Biscuit the Dog go on simple yet

fun adventures. Here Biscuit visits a farm and gets to interact with all sorts of farm animals. This is a wonderful and appealing series for early readers.

My three year old son has this one memorized, it's one of his favorite books to "read" to his not quite two year old brother. They both love animals and are very interested in the friendship between Biscuit and the piglet. This book has been a favorite of theirs since they got it four months ago, it's quite dog eared now! I will be picking up a few of the other Biscuit books for sure.

We love all of the Biscuit books and this one is no different. In these I Can Read! editions, the child gains confidence in reading ability since there is some repetition of words and easy sight words as well. Biscuit's Day at the Farm is a laugh out loud funny read that we have really enjoyed.

My son Loves biscuit and the cute pictures in the book. This book has a cute little piglet that keeps getting out of the pen and My 3 year old smiles every time we read about it getting out! We have had Biscuit hard back books since he was a baby and he loves anything biscuit. This is a great book and I think it will be fun for him to learn to read (which is A point of this book as it is called an "I can read Book". but even before your child can read, this would be a sweet book to have and read together!

My 3 year old reads these books to my 2 year old and it's the cutest thing ever. My 2 year old goes around quoting biscuit books. They are very simple in words, making it easy for beginning readers and also is great for keeping the attention of wiggly little ones.

Great for my grandchildren who are 2 1/2- love to hear it read over and over again and one is learning to recognize the words and start to read on own.

~ borrowed from the Library BISCUIT'S DAY AT THE FARM is a cute little book at the Kindergarten level. The story is about a visit to the farm where the Biscuit and his girl are helping out. The drama comes in with a piglet that won't stay in his pen. Here's some sample text from two pages: We must put the piglet back. Woof, woof! Let's feed the sheep, Biscuit. Woof, woof! Like all of the Biscuit books the drawings in this one are in soft pastels which my kids always found appealing. The text is in a LARGE font. Besides being a practice reader this book can be used with older babies and toddlers. There are lots of farm animals to point at --pigs, chickens, goats, sheep, and geese-- as well as farm

structures and equipment, like barns, pens, cages and tractors.
