Make Way For Ducklings

Synopsis

"Robert McCloskey's unusual and stunning pictures have long been a delight for their fun as well as their spirit of place." "The Horn Book" Mrs. Mallard was sure that the pond in the Boston Public Gardens would be a perfect place for her and her eight ducklings to live. The problem was how to get them there through the busy streets of Boston. But with a little help from the Boston police, Mrs. Mallard and Jack, Kack, Lack, Nack, Ouack, Pack, and Quack arrive safely at their new home. This brilliantly illustrated, amusingly observed tale of Mallards on the move has won the hearts of generations of readers. Children naturally are interested in understanding a parent's perspective on the family. Mr. and Mrs. Mallard's search for a safe home for their future family makes a wonderful story for children and parents to explore and understand more about parental love. Although the book has a 4-8 age reading level, younger children enjoy having it read to them (based on the experiences of my four children). The illustrations are terrific and draw the child's interest very easily. Older children like to reread the story because of its comfortable connection to their more youthful years and reinforcement of their sense of being wanted, loved, and belonging. To me, the best part of the book is that the locations are actually easy to find in Boston. So if you live in the Boston area or ever come here, you can also take your children to experience the story. I know my younger daughter thought that her first Swan boat ride in the Public Garden was the ultimate moment in her life (up to that point). She kept wanting to know which duck was Mrs. Mallard, and which one was Mr. Mallard. Then she wanted to spot Jack, Kack, Lack, Mack, Nack, Ouack (my favorite name in the book), Pack, and Quack. I had a ball! There are also statues of Mrs. Mallard and her 8 offspring that the children can touch. There's also an annual parade that you can participate in. If you don't know the story, here's a summary: Mr. and Mrs. Mallard were looking for a place to live where they could raise a family safely. Whenever Mr. Mallard found someplace he liked, Mrs. Mallard worried about foxes and turtles. Finally they got to the pond in the Public Garden in Boston, and were too tired to go on. So they spent the night on the little island there.

Robert McCloskey's classic children's book, *Make Way for Ducklings* is just as delightful in the year 2002 as it was back when it was first published in 1941. The timeless story of Mr. and Mrs. Mallard and their eight adorable ducklings is still a fun read for children and parents alike. The story begins as the prospective parents search for a new home suitable for raising their young ones. Mrs. Mallard is clearly the expert in this endeavor and Mr. Mallard is quite relieved when she finally settles on a spot that is not too dangerous or noisy for their young family. The couple make themselves quite at home on a little island in the Charles River of Boston, a quiet oasis within the busy city. Soon the ducklings hatch and Mrs. Mallard sets about teaching them all they need to know in order to live in the city. By now they have made good friends with some of their human neighbors, especially Michael, the policeman. When the family makes its first trip into the city, Michael calls for backup and literally stops traffic all along their path. The people the Mallards encounter are just as pleased to see the ducks as the Mallards are to be there. The reader leaves the family settling comfortably for the night after a day of happily following the Swan boats in the park and eating the peanuts

tossed their way. The charm of this book lies in both the heartwarming story and the realistic but idyllic illustrations. McCloskey is quite gifted at portraying the natural world to children in a way that is authentic and familiar. Most children have seen duck families in a nearby pond and witnessed the way the ducklings learn about the world by waddling along after their parents. The sketched illustrations add to the natural feeling of the book.
