## Customer Reviews

i bought this along with the "you're One" book, just so i can collect them all. I get so teary eyed when i was reading it to my almost one year old baby because all the things written there have been surpassed by my baby. and it get me thinking, time really does fly fast.

This is the SWEETEST board book I have ever seen! It is meant to be given and read to a newborn as he/she arrives and starts to grow up. The book has a cute but beautiful way of capturing the excitement and love surrounding the birth of a child. The drawings are super cute. It's never too early to start a child on the path to reading!

While this book seemed a little overpriced for its size...the content is so sweet, touching and on

point. The book looks forward to all the wonderful little milestones baby will experience in Year 1 (first tooth, first sounds/words, etc.). I love promoting reading with little ones, and one thing I've noticed over the years is that there are children's books that kids go bananas over...and there are several out there that grown ups can appreciate during story time whether for their humor or sentimental message. This is certainly one of those that will resonate with grown ups. Older siblings will enjoy it too - whether because they can recall younger siblings having experienced the baby milestones mentioned in the book, or because they are old enough to understand that these are the things that they can look forward to new baby brother or sister experiencing over the next 12 months. Great book to include with a newborn gift!

I love this book. It is so sweet! Elephants are one of my favorite animals because they are family oriented and take such good care of Baby. When I learned I will soon have a little grandson of my own, I decided to send gifts in an elephant theme, which had been the theme of his daddy's nursery. This book was a perfect find. My son and his wife love it.

I got this for my best friend for her baby shower. She loves elephants, so this stood out to me. The illustrations and story are ADORABLE. I also love that there are sequels to the book (You're One, You're Two, etc.) so I can get those as part of her baby's future birthday gifts. Love it!

We received this as a baby shower gift. It was absolutely perfect and I've now given it as a gift too! An ideal small present for a shower or to even bring to hospital. Might be good for siblings as well. The illustrations are adorable! Also, the book is very gender neutral which makes it an ideal gift for anyone - baby boys or baby girls and all types of parents.

The book is cute and from the description it seemed to be safe for all types of parents no matter how they got their child. There is one line that says something about baby's first word being "mama or dada". Doesn't work for the parents I am buying this for as a gift. Have to send it back.
