Blue Boat

Synopsis

With the tremendous success of RED TRUCK in board book format and anticipation around YELLOW COPTER in board to match, we're thrilled to complete the primary-colored series about vehicles who save the day by bringing BLUE BOAT into board, too! When a family on a sailing outing gets stuck in a surprise storm, there is only one boat tough enough to handle the rocking waves and howling winds: Blue Boat! Now even the youngest readers can cheer on this "rough, tough tugboat."

Customer Reviews

Trouble is brewing, but Blue Boat will save the day! When a quick nor'easter comes up and threatens a sailboat and its crew, only one boat is rough enough and tough enough to do the job. My grandson loves this charming, action-packed story. And he especially loves Blue Boat. Highly recommended, along with the companion books Yellow Copter and Red Truck.

I grew up on the water and often wondered about the different kinds of boats I saw floating by each day. This book is a charming rhyming story about a heroic tugboat that saves the day. It explains what tugboats do and why, all with cute illustrations made of clear and bright shapes and colors that my kids really like.

Blue Boat is about a rescue boat that happens to be, well, blue. The story within its pages is that the boat is off to save a family that is stuck out in the water and a super dangerous, scary storm is coming in. There really isn't much more to the story than that. I would say the majority of this story is in the artwork which is fun and bright. It is entertaining enough, but as a parent, I would like a bit more to the story than was actually there. The nice thing though is that not only does this book come as a normal picture book, but it also comes as a board book. So you can get a much harder to destroy copy that you can let your little boat lover have to look at whenever their hearts desire! This review is based on a copy provided by the publisher in exchange for a fair and honest review. Find more of my reviews here:[...]

I love that this is available in both hardcover picture book and board book. Minimal text, but, paired with this illustrations, this is actually a rather exciting story about a rescue mission. Will easily appeal to very little readers who love boats and slightly older little readers who will recognize and enjoy the drama of the story.

My kids love this book, as well as Red Truck and Yellow Copter.

My 18 month old loves this book! It's short and keeps his attention!

My little girl love it.

This is adorable! My 18 month old who loves vehicles always chooses the books from this series!
