The Doll People Book 4 The Doll People Set Sail

Synopsis

Annabelle Doll, Tiffany Funcraft, and their families are whisked out to sea when the Palmers accidentally place them in a box destined for charity donation. And it turns out they're not alone—there are plenty of other doll people on the ship, too. After traveling thousands of miles, will they be able to find their way home? In the fourth installment in the beloved Doll People series, Brett Helquist joins Ann M. Martin and Laura Godwin on another exhilarating adventure from a doll's-eye view. Praise for *The Doll People Set Sail* * "A rousing adventure that treats fans to thrilling action (on a miniature scale) and personable new dolls to discover." -Publishers Weekly, starred review "Fans will welcome aboard Helquist, whose artwork is inspired by and takes off from the excellent illustrations established in the earlier books by Brian Selznick; indeed, Annabelle is even more winsome and expressive here.... Readers are guaranteed very smooth sailing." -Kirkus Reviews "This is a good choice for independent readers ready to try something longer." -School Library Journal "Though it's not necessary to have read the first three entries, it's the stalwart fans who will be cheering 'Doll power!' the loudest as these beloved characters prove once again they can all work together despite their very different personalities, the Dolls and the Funcrafts combining their traits of caution and courage in the best way possible." -Horn Book Praise for *The Runaway Dolls* * "Fast-paced, satisfyingly developed, the book is doubly enjoyable for its foundation in a solidly imagined doll culture." -Publishers Weekly, starred review Praise for *The Meanest Doll in the World* * "Wrapped in humor and adventure are serious considerations of self-esteem, the power of intimidation, and the nature of friendship." -Kirkus Reviews, starred review Praise for *The Doll People* "Entertaining and satisfying." -The New York Times * "Doll lovers may well approach their imaginative play with renewed enthusiasm and a sense of wonder after reading this fun-filled adventure." -Publishers Weekly, starred review * "[A] marvelous treat." -Kirkus Reviews, starred review

Anne Martin, I really LOVE your books!! I am nine years old and I really enjoyed reading The Doll People Set Sail. (I enjoyed it so much I finished it in three days!) When I heard the the fourth Doll People book came out I went to the store and bought it right away. PLEASE write more books, when I finished The Runaway Dolls I was sad because it was my favorite book and now I am so glad you wrote another book. When I started the book I knew there would have to be an end, so when I got to the end I wanted to keep reading to know what happens but I didn't want to finish it. Please write more books I will read every one you write!

I loved the 4th in the series of Doll People, you find yourself right in the story with the dolls. Which you feel differently about your own dolls after reading this series! Smile! Working at a elementary school for years, I have read these books to many a student, and enjoyed it over and over again. Ann M. Martin is an amazing author. I love her imagination! I have given these sets as gifts to so many, and the children love them. Families would enjoy every moment reading them together with their children. I highly recommend The Doll People Stories, book 1-4!!!

Have shared all of the previous books in this series and donated a set to our school library. I must confess that this was my treat as my Annual Christmas Read. Just love the adventures of the Doll People!

Right now the last in the series and my granddaughter was just waiting to read it!! She loves the series and recommended it to her friends. In fact, I believe her teacher read the first book during class to the students.

My eight year old daughter in third grade LOVES the Doll People books. This fourth installment

does not disappoint. I like that it is challenging for her and longer than most books at this reading level. She really likes the illustrations. They also count as a lot of AR points, if that is a system your child's school uses.

My son was started on this series in school during 2nd grade. Near the end of third grade he is currently rereading the series. When I first bought book one of the series he didn't want anything to do with it. He thought it was for girls. After he got into it in class, he found that it was full of excitement and adventure.

Such a great adventure - my 6 yr old daughter and I enjoyed every minute of this story. We have read the three prior books and truthfully didn't think the series could get any better. This one is rich in adventure. We are hopeful that there is another book in the series to follow. Highly recommend!

This note is from my student: I love The Doll People books. They are so interesting. Thank you for writing the books. Sincerely, CS
