Age Range: 5 - 8 years

Grade Level: Kindergarten - 3

## Customer Reviews

My 3 year old grandson loves stickers and construction vehicles, so this sticker book has been a great success. He is still young so, we did it together. It was a great educational tool, as he was able to practice visually seeing where each sticker belonged. He was happily involved in matching the sticker with the page and spot it belonged to. We both had fun, and if a sticker ended up in the wrong spot, we were even able to take it off and place it where it belonged.

My 3 year old son is obsessed with stickers right now! We bought him several sticker activity books for Christmas, and this is by far his favorite. He loves matching the stickers up with the correct construction equipment. He's also at that stage where he's decided he doesn't want us to read to him anymore, but he'll sit still long enough for us to read the little excerpts describing each piece of equipment. He is also able to peel the stickers off easily, whereas he has more difficulty with other

books. Will probably trash the first book we bought and buy another.

Diggers and Dumpers (Ultimate Sticker Books) This book is great for kids that are really into trucks and heavy equipment. My husband runs heavy equipment for a living so my son, 2 1/2 yrs old, already knows many names of the equipment. This sticker book was great and he loved finding the trucks and sticking them down. Definitely recommend for kids who love these types of trucks and equipment.

Poor value for any money. Only 8 pages and of that only 2.5 of stickers. If you want cool stickers for your child, select something with more stickers. Would not recommend to anyone.

Kids will always love stickers, construction work, trucks, vehicles and anything that builds things! This sticker book is for kids who love vehicles, trucks, flashing lights and construction. The stickers are excellent quality and brilliant pictures. DK sticker books are great for gift ideas and what I love about DK sticker books they are safe to use, fun and inexpensive. The kids use this book for hours and hours. Perfect for 'Mighty Machine' fans.

I bought this book for my 2 1/2 y.o. son for Christmas and he LOVES it!! At first we didn't even place the stickers where they were supposed to go but now that we did, he always asks me to read the description of each and every truck. It's been a month now and he still looks at it every day. Highly recommend this for those kids that love their trucks!

My 2.5 year old is going to go bonkers for this. I got it for him for Christmas. I gave it 4 stars because I ordered a different one for my other son at the same time and it's much thicker but was the same price. I'm still happy, though.

My 3 year old loved looking at the trucks and peeling off the stickers. He's truck obsessed so this was perfect for him. What I didn't love about it was how hard it is to find where the stickers go. I personally got really frustrated and at the age of 3 he wasn't much help. I know other DK books are designed like that, and I find it frustrating. Also, the stickers are paper, so they are definitely not in any way reusable. They rip and lose their adhesion very quickly.
