## Customer Reviews

I really love having an engagement calendar like this one. It is a necessity for me to keep track of birthdays, anniversaries, daily schedules, etc. I have bought this calendar for many years now; however, there are two features that bother me about the book: 1--Sunday is the first day of the week, yet the pages of the book start the week with Monday. At the bottom of each page there is a monthly calendar with the weeks starting with Sunday. It seems inconsistent to me. I would like to see Sunday as the first day of the week on each page also. 2---I love reproduction fabrics but the overwhelming quilts in this book are very contemporary, bright and elaborate. A few simple, traditional patterns using reproduction 30's and Civil War fabrics would be a welcome rest for the eyes and a treat for those of us who find beauty in more simple designs and quilting motifs. The space allowed for writing each day's events is adequate, the page for notes in the back of the book and the calendars for the present year and the year to come are useful.

First off, this calendar has absolutely beautiful pictures, quilts and interesting accompanying information. I do like the Monday through Sunday layout also. I don't like how flimsy it feels. The pages are thin, so using a Sharpie or similar pen is out. I also don't like the four weeks that are designated Quilt Week. This preprinted information takes up a good half of the space to write in appointments, etc. It's nice that it's included, but a less intrusive way of noting it would have been nice.

I purchase these each year to keep myself organized. I list significant events so it becomes like a diary. I keep them as a reference especially with medical history. I also purchase them for gifts. One friend uses it for an appointment book while another uses it for craft paper the next year. The spiral binding allows it to lie flat.

I purchase this calendar every year. I am a quilter and enjoy viewing the quilts in the calendar, plus it is spiral bound and that works best for me. I can keep bills that need to be paid at a future date filed in the week they need to be paid, plus other reminders for various other things. A GREAT calendar at a good price.

I really like the quilt photos in this calendar. I usually don't like the colors of the quilts in most of the quilting books I've seen in the past; and if they look ugly, I don't know if I like the pattern. These quilts are beautiful, and I can't wait to make them!

June Tailor's Shape Ruler is great and saves time. The two wall calendars serve their purpose, but I like traditional quilts and these pictures are too artistic for me. If I were a beginning quilter, I wouldn't tackle the craft based on these pictures. The craft of these quilters is very good, but not my cup of tea. The Engagement Calendar has many more pictures of quilts I would be encouraged to try and there is plenty of space to record my many daily activities, meetings, and reminders.

Beautiful! Klaudeen Hansen has given the new Engagement calendar a new look and it's the best ever. As always, a wonderful selection of award winning quilts from across the nation!

Too many pre printed items in the columns where I write my daily journal entries
