## Customer Reviews

We really like the School Zone books: they have several educational activities, which keeps kids from getting bored with the book. However, this particular one turned out to be a disappointment: it is a 100% re-print of the earlier edition's Big Preschool Workbook. Well, they added a CD. What really upsets me here: - no reference in the book or website to identify that this is a re-print, - different title and cover art, so you cannot suspect anything, - no mentioning of OS requirements on the webpage - ended up not working on our computers, - but most upsetting thing: posted both this one and earlier edition as Frequently Bought TOGETHER. So if you plan to buy the book, you may want to check the Big Preschool Workbook for better price (and in case you have it already). Once again:

there is NO difference - except for the CD. About the CD: it will not work on Mac with OS Lion (with latest updates), only on earlier OS Xs (with PowerPC apps support).

could sit down and go through 20 pages at a time! the single 24 page booklets are good too, but he went through them one book every 2-3 days. this big book lasted almost 2 months!

I liked it because it is great for 3-year-olds. Other preschool books I have found are more appropriate for 4-year-olds and too difficult for 3s

love it is really good for my children

very good
