# Who Was Ferdinand Magellan?

## Synopsis

When Portuguese sailor Ferdinand Magellan set sail from Spain in 1519, he believed he could get to the Spice Islands by sailing west through or around the New World. He was right, but what he didn't know was that the treacherous voyage would take him three years and cost him his life.

Black-and-white line drawings illustrate Magellan's life and voyage, with sidebars and a time line that enhance readers' understanding of the period.

## Customer Reviews

As an adult I thought the story was very intriguing and exciting. This was a Magellan that was never portrayed in history books of yore. The drawings were absolutely beautiful, full of so much detail and interesting features. This book makes a marvelous present for children learning about history. After reading this book, I can't believe that Hollywood has never made a movie about Magellan!

Great subject for a children book. I got this series of books for my daughter and she really enjoys reading them. Great read and educational too.

I have learned a lot of history of human traveling. It also answers some of my questions. E.g. why Brazil

is the only nation in South America whose people speak Portuguese rather than Spanish.

Great children book (Ages 9-12) to start learning about Discoverers and how the world learned that the world was round.

My child loves this series and this was no exception. Recommend for grades 3-7.

We gave this book as a present to our third grade teacher. Excellent books

Great books! Have purchased a number of different titles and love them all!

My 8-year-old history buff loves all of the "Who Was" Books. This is what he wrote about this one: Ferdinand Magellan sailed around the world. Uh kind of. Well let's say his crew sailed around the world. You see he went to the Philippines. He died. I am not going to tell you the details. His ship sailed around the world. He was Portuguese. I love this book.
