

## Synopsis

Kids love to doodle the days away. And this sixth title in our Doodle series offers hours of entertainment for eager imaginations. On each of the generous-sized pages Catlow has made a start&#151;a few beginning strokes of pictures and prompts like &#147;disguise meâ • above a picture of a boy, or &#147;whose footprints?â • above various animal tracks. With over 200 pages to complete and create, this book invites overtaxed adults as well as kids to play and enjoy in the spirit of adventure, imagination, and creativity.

## Customer Reviews

My step-dad had a ruptured brain aneurysm and survived a craniotomy. When he was well enough to come home from the hospital, he was physically better, but his personality had reverted to that similar of a child. I ordered some of these doodle books, and he took to them immediately...doodling in these books really was all that he wanted to do for the first couple of weeks that he was home. He would even get up in the middle of the night to doodle. The books have the start of a drawing, and urge the reader to finish the drawing using their own creativity. My entire family was amazed at my step-dad's drawings...we didn't even know he knew how to draw! Three months later he is 99% back to normal, going to work, driving, AMAZING! Thank you to the author for this ingenious product.

The Doodle books are very creative and interesting. The Boys Doodle book, Ooodles of Doodles, and the Halloween Doodles books are high recommends from both me and my children. Very Impressed. Hours of fun, amusing illustrations, suitable for a boy or girl of any age, great as gifts. You will not be sorry with this purchase! I wanted to start drawing in them myself!!

This is a great idea starter. There enough pages to relate to any story. My second graders loved this book. Not only the pages but the cover as well. You can see imaginations working throughout the room. Using these pages also helped my student to remember their story. They remembered details and compared ideas. I love this book and plan on using it again and again.

I got this as a gift for a 9 year old and a 5 year old. It's totally great for the younger set if you can help them or if they can already read them prompts themselves. I think 9 is probably the oldest child I get this for because it's a bit simplistic. It has a good variety of prompts. The lines are a bit dark though, so they may be a little hard to draw over. Overall, it's a good choice for a kid. I also love that it's not gendered like the "doodles for boys" ones. My daughters don't just want to doodle about shoes and puppies, and my son doesn't want to just doodle about rockets and cars, so the books that cover the spectrum are much better.

Really like this book. I am going to carry this in my substitute teaching bag for when kids need something to do. I can give them a page. You cannot copy the pages but for the child who gets their work done first and needs something quiet to do at their desk this would be great. Great quality paper and great variety too. Very impressive! They should make a product that we as teachers can copy as the kids would love this.

I am a COTA (Occupational Therapy) working in a school district with mostly k-2nd grade. I use this for children to practice drawing, coloring, tracing and cutting. The children enjoy adding their own personal touches and drawing in pictures on pages that require you to add something. It is a nice tool to add to the occupational therapy practice and children who enjoy coloring and drawing will enjoy this book.

This book is so great that I came back to order more for some birthday parties my children have coming up. Perfect for ages 5-9 ish I would guess. The words are easy enough for beginning readers, like my 5 year old.

My grandson absolutely loved it! He is a doodler with a pencil and paper always at hand. Not only did he love it but my daughter loved it as well. She said she couldn't wait to doodle in the book because it was for adults too! Big hit for the Nanny LOL!
