I am just going to start off by saying that the Seventeen Ultimate Guide to Style book is amazing! I seriously wish I had this book in High School, it is like a fashion bible. This book will help me so much when I do not know what to wear, it will be my source of inspiration. I honestly cannot rave enough about this book. This book is filled with tips and tricks to guide every girl towards finding her

own style. If you are ever feeling skeptical about your style, I suggest that you check this book out. Seventeen Magazine has always made it their mission to teach young girls that self-assurance is key, and this book is another way of teaching girls how to be confident and fashionable at the same time! If you do not own a copy, I definitely recommend you get one!

I am 20. I look at this book whenever I am trying to create new outfits out of my closet. I always get compliments on the way I dress now that I have this.

I bought this for my niece who's a Senior in High School, leaving for college soon. I wanted to send her off with a few books such as, etiquette, clothing styling, hair styling, makeup, etc. I stumbled upon this book in my search for "General Style / Clothes." Honestly, prior to now, I've despised Seventeen as a publisher, for everything they are. I used to get the Magazine as a teenager, loved it then, but now without going into a host of blah blah blah no one cares about my opinions on life blah blah I grew a much hated attitude towards it. However, as I do love books in general, I gave every well - rated book a chance, checked out the preview provided and was surprised at what I found. So I ordered it, knowing I could return it / sell it back / whatever, if I didn't want to give it to my niece. When it arrived and I browsed through it, I was more than happy to present it to my niece. It had basic wardrobe pieces, body size clothing suggestions, shopping suggestions, wardrobe budget mix n' matches, etc etc. I really did love it!!!

I read this book and was able to relate to styles featured and was also able to get inspired!! I highly recommend it!

It's a cute book with cute ideas. With the Internet at our fingertips, it probably isn't the best decision to spend money on this, but I understand some people enjoy tangible items to look through. It isn't life changing or anything, so don't expect anything you haven't seen already.

This is a fun book with lots of great photos. I like that it is organized by style type (classic, girly, boho, etc.) so that you can zero-in on what you like. It is targeted at teenagers and women in their early twenties, but I think it is fun for anyone interested in fashion.

I love this book! There are so many great outfits and items that have really inspired me to do a lot and create great outfits! I love this book!!! It's my go-to when I can't figure out what to wear in the

morning! Great to have for school, parties, and anything else!

This book is really fun to look through and has a lot of amazing fashion. I found it was most helpful as a reference guide to find a style unique to me, not just trying to copy the types of looks they categorize.
