Customer Reviews

Bought this for my 3.5 year old daughter. We love the other Usborne sticker books, but this one seemed a bit different. The clothes and accessories had to go in quite specific spots. The other dressing sticker books seem a bit more open ended. But she didn't seem to mind too much (just needed my help with it). It is definitely more of a "boy" book, with sports like motor cross, and each figure is male, but I dislike her having too many "girly" sports books. She enjoyed learning about all the different sports. Each page has a short description about the sport.

Both grandchildren--girl almost 7 & boy 5-- LOVE the usborne sticker books! Have been buying them for several yrs now and each one is happily received! We have fun doing them together--and learning during the process! Grndson has loved this one about sports. Good for kid's dexterity--peeling up the sticker, placing on page, good for attention span to sit with a project--the best part is they just plain love these books!

This was such a cute book! My son had a blast working on it, and there are many pages so it has lasted us a long time. I bought it to keep him occupied on our 2 hours flight. Worked like a charm!
