# The Great Undersea Search (Look, Puzzle, Learn Series)

## Synopsis

An information and puzzle book combined, which explores underwater habitats, from coral reefs to Arctic waters, from the ocean bed to the rocky shore. The book focuses on a wide variety of activities, from shipwreck or reef dives, to undersea oil-rig maintenance and deep-sea exploration. The combination of divers, sealife and underwater machines creates an entertaining and instructive game for children of all ages, and should afford them hours of enjoyment. Each underwater scene is enlivened by colourful and realistic illustrations, while keys at the back provide answers when a child gets stuck. A comprehensive index can also be used as a fact finder.

## Customer Reviews

Gave this series to a 6 and 9 year old last Fall. This is their favorite book. Educational, entertaining, and fun to find the "search for" items. PLUS - they learned an incredible amount about Sea Life and Sea Animals - that they remember MONTHS later. Adults and children love this. Wonderful "hands on" book for kids!

The illustrations are fantastic and my son really loves to look for all the hidden objects (some of which are very hard to find). The text is really good also and we very highly recommend this whole

series.

I got this as a Christmas present for my cousin while at the same time she was learning in school about the ocean and the wildlife that thrives in the seven seas. She both loved it and help her in school.

This is a marvelously illustrated book for the grade school classroom, like so many of Usborne's books. It can provide hours of enjoyment for children, perusing the illustrations and descriptions of every imaginable fish. It gives glimpses of prehistoric seas, shipwrecks, coral dives, kelp forests,, so many great designs. 82 pages, great colors, good for K-5. A recommended classroom book to hold the interest of a child and help them to understand the undersea world. You can use it, also, to encourage art designs, kids love coloring the bright colors of fish with crayon, colored pencil or magic marker. These are anti-ADHD books and activities. (Sponge Bob is pro-ADHD, Square Pants Bob is ADHD personified!)

This is one of my favorites - and one I always loved for my children to "study"! Now I'm giving is as a gift. Well done, beautiful pictures, fun to look at and educatinoal at the same time.

My students like the pictures and they like looking for all the creatures. It is billed as having puzzles, but it doesn't. It's a picture search and nothing more.
