## Customer Reviews

Enjoyable and my five year old niece loved it but it the book was more of an early reader then the bed time story we were looking for. A little short and not entertaining enough to be read frequently

Cute book but silly story line. 5yr old Daughter liked it though. Ordered it because my daughter was having a pony themed birthday. Barbie in my opinion is way over sexualized for young girls to look up to or emulate. Something to think about.

My granddaughter loved this -- it was among several other books for Christmas. She has read it to me several times (oh joy), and announced last weekend that she's ready to donate it to the library so other kids can enjoy it. She loves the library almost as much as she loves her pony. well... maybe.

Cute book, my only complaint is that I could not make text much bigger . It zooms in a little bit , but still too small, especially if you have kindle fire or iPad mini

6 year old granddaughter is a Barbie fan and asked for this for xmas. Happy granddaughter = happy grandparents. enjoy

The girls loved the book it went with the barbie and horse I also bought so they had a book to play out the story

My daughter reads every night and she loves barbie! She loved this one and still reads it, over and over!

My daughter got this for her 7th birthday bc she loves horses. We read it all the time and she loves it.
