## Customer Reviews

a great way to spend time with your kids. very easy-to-follow instructions. easy and clear projects. some items are decorative and some are functional and nice. highly recommended for a gift or for your own use. we love this author and her books. i am an adult and i do it w my wife bc it is relaxing.

In this fun clay book, Ms. Taylor teaches us a few pointers before we start trying to create the whimsical projects she offers us. She explains how to condition the clay to make it easier to work

with, how to make different shapes with ease to add to other projects, how to mix colors together to make your own special unique colors not found anywhere in stores and she even teaches us how to correctly prop up our projects before we put them in the oven to bake. She offers great step-by-step instructions and provides clear pictures for us to follow for each step of the project. I really loved reading through this clay book and even as an adult, Ms. Taylor had me excited early on to start working with clay to make some of these fun, colorful projects. A few projects I want to make first are the ladybug, duck & ducklings, hoot owl, friendly fox and dancing polar bear. I'm already in the process of buying all the supplies I need to start these projects. I enjoyed this book so much, not only do I highly recommend it, but also I hope Ms. Taylor decides to come out with more clay project books. If you love working with clay and you want some new ideas or you're looking to buy a fun gift for someone, this would be the perfect book to look into. This book is labeled by the publisher for ages 7-11 and grades 2-5. I received a copy of this book from NetGalley in exchange for an unbiased review. No other consideration was offered, expected or received. I am big on arts-n-crafts and have a lot of fun doing them with the children in my life. When I saw this book go up for review on NetGalley, I grabbed it up. We love working with clay and play-doh - and the projects on the cover look like a lot of fun. The next time the kids came over, we sat down at my laptop and took a look, deciding what we were going to make. The projects are cute and fun. Even though the book description says this is for ages 7-11, grades 2-6, because of the easy instructions and color photos, children of all ages can make these projects.

Truly easy directions for a child to follow. My 9 year old has enjoyed making these creations.
