## Customer Reviews

I love many of the designs, however the pattern pages presented a problem for me. There are

several sizes and they all overlap. That means tracing the size you want - had to purchase large roll of tracing paper in order to fully cover the pattern design. Not the end of the world, but still an added expense when using the patterns.

My first Japanese sewing book, I loved it! The patterns are comfy and beautiful, easy to sew, and very explicit instructions. I want to make every single garment, I just find the sizes confusing, but that is because I am used to other patterns with the exact sizes, anyway right now I'm crazy drafting all the patterns, my daughter is just one year old so if it doesn't fit now it would fit soon

I am so happy to have bought this book, it's really easy to follow the steps, I made two dresses already and it's really cute. Can't wait to sew more of it.... Thanks a lot to make this in English version. Can't wait for another book of hers.. ^•

Just as expected
