I Can (Baby Beginner Board Books)

Synopsis

Helen Oxenbury's brilliant board books have delighted a generation of babies. Now from the most widely loved of artists comes a reissue of a board book to help very young children explore their worlds. In I CAN, a baby creates his own wonders as he jumps and stretches and dances. Full of character and humor, this charming book forms a winsome introduction to creativity and movement.

Grade Level: Preschool and up

Customer Reviews

This is one of my 15 month old little boy's favorite books. He loves the simple words (I CAN starts the story and then there is one word on each page: jump, bend, etc.) and the sweet babies who look like him! Next to the word on each page, I wrote in the date when he did the same thing as the baby in the illustration: when he first waved, when he first ran, etc. It is a lovely way to keep a memory. He brings me the book at least once every day with a big smile on his face. Since it is a board book, it's quite durable, too.

Our son received the boxed set of four tiny board books including "I Can", "I Touch", "I Hear" and "I See" as a gift when he was born. These were the first books we ever read to him and we started when he was just a few months old. Being small board books, they were great for a first book because our son could hold them and even chew on them and really get interested in the idea of a

book. He could hold one while we read another. Being simple picture books with a cute baby as the focus, the books seem to hold an infants attention and we had lots of opportunity for interaction. I talked a lot about what the baby was doing and feeling -- as well as the other objects on each page. When our son started standing and walking, he started imitated the actions in "I Can." At 23 months, he still picks these books up and goes through them by himself from time to time. The books have gotten so much use that they are falling apart!!'m online looking for the boxed set to give to friends with a newborn...

My 17 month old son loves this book. Each page lists a simple action, such as falling, crawling, running, that we all have fun acting out together. It's a fun way to boost his understanding of simple verbs.

My older daughters, aged 19 and 15 love to read this to their little brother aged 20 months. He goes through all of the activities and the girls laugh and giggle while he bends, jumbs, dances and stretches. A book that encourages easy and quick to read and encourages involvement. Some evenings I think those girls read it to him a dozen times!

My daughters found this fun when they were babies and toddlers, and I found it simple enough to keep the attention of such young children. It can be a fun activity book, with the children mimicing everything they see.

Simple actions companion. Durable board book format. Although the illustrations don't stand out vibrantly like an Eric Carle book - it's much better loved by my daughter than say the Very Hungry Caterpillar. It's a quick, practical, fun read my daughter can relate to any time of the day or night.

Great book for wee ones. The images are realistic and simple. I love that these books aren't busy like so many books. It helps my daughter focus on one thing at a time to have simple things to look at. This will also be great when she is first learning words.

Got this board book for 18-month-old grandson because he loves his other board books by Helen Oxenbury. It maybe the small size of this one. The babies in the other Oxenbury Board books seem to be so life size that they draw him inside.
