Customer Reviews

Book wasn't 'interactive' as billed. Only flaps to lift were pictures of the characters at the top of the book. The colors on the pages were of items not common to tiny ones...sunset? On the orange page? And white? The little 'poem?' at the top of each page wasn't something little ones could relate to.

This Disney Book is really good if you have a small person who needs reinforcement with their colors recognition. My great-grand-niece and I have had a lot of fun going over her colors. This book has thick pages that are easy for small hands.

Not my favorite book for a baby. My grandson loves Mickey but he doesn't care what colors need to blend to make a new color.

Cute but not very sturdy for a 2 year old who likes to bend and break off the character heads on the

top of the book

There isn't much of a story. My toddler loves Mickey and flap books but wasn't into this at all.

My toddlers love Mickey Mouse Clubhouse and were excited for this book. It is very bright and colorful. Only con is the flaps on top are flimsy and 2 were bent when we received the book.

My niece loves Mickey and books, especially board books or touch books. She is two and this is perfect.

Great book for toddlers and preschoolers to learn colors and what colors mix together to make other colors.
