My Little Pony: Daring Do And The Marked Thief Of Marapore (The Daring Do Adventure Collection)

Synopsis

For the first time ever, fans can buy this novel outside of the limited edition box set. Daring Do is a fan-favorite character and star of her own books series that the pony characters read on the My Little Pony: Friendship is Magic TV show. Three missing relics. Two mysterious stallions. One fearless Pegasus. Deep in the southern reaches of Equestria, danger is brewing...but who exactly is stirring the pot? Three remote villages have existed for centuries in the shadow of the fiery, active volcano Mount Vehoovius. The villages are protected by an extremely powerful set of magical artifacts known as the Flankara Relics. But when the precious artifacts begin to disappear right before Vehoovius is predicted to erupt, the terrified villagers start to panic. A stranger summons Daring Do to join the search, and she answers the call, even when it means putting herself in some hot lava. Can Daring Do catch the thief and save the villages before it's too late? © 2016 Hasbro. All Rights Reserved.

Age Range: 8 - 12 years

Grade Level: 5 - 7

Customer Reviews

A must have for My Little Pony fans of all ages! As an adult, I have been a little hesitant to read the actual My Little Pony novels by GM Borrow, mostly because I feel I would not be able to relate and were a little out of my age bracket. I saw this book at B&N over the weekend and picked it up, not sure what to expect. I was hooked the minute I opened it. I have to warn fans of the series, if you

are expecting the Mane Six to make an appearance you will be disappointed (they are mentioned once and not by name). But the book does not suffer for that. Expanding even further on the universe of Equestria, we are taken to ponyfied versions of Naples and other cities, and meet a bevy of new characters. Of course Daring Do is the star, and this is a totally awesome book because of it. Eagerly awaiting for more Daring Do tales!!!!

Decent YA pulp. It makes the world of Equestria a LOT bigger than what we see in the cartoons, and while Quibblepants would argue it's too much action and not enough cleverness, Daring Do does do some puzzle solving.

I really enjoyed this Daring Do book! I loved the Daring Do episodes of My Little Pony Friendship is Magic, and this book was even better than those episodes! It really got the feel of an adventure novel down! I'd recommend to fans of My Little Pony, or kids who enjoy adventure stories, even if they aren't really a fan of My Little Pony.

Like many other's daughters, mine loves MLP, and I do too. My daughter is 6 and starting to read on her own but this book I read to her every night. I couldn't believe the advanced words. I was substituting them with an easier synonym or explaining them as we went. This started happening so often it was almost every paragraph. The story has so many twists and new characters with crazy names it was so hard to keep track of everything and everyone, even for me! There is no lexile level yet I could find and I am very curious to see what it is. Cute book yes, but I feel it is more at a middle school level, and not for low level kids. They will get discouraged.

I was very disappointed with this book. My son is 8 and an excellent reader, however the vocabulary in this book is on an upper middle school level. It was so complex that he wanted to return it. The content is also way too hard for little kids. The author could have kept the story line but made it easier for younger kids to read. I personally don't know any middle school kids who read My Little Pony.

My daughter love this book (and all of the MLP)
