Do you know who was the youngest president ever elected to office, who served the shortest term, and who served the longest? The answers to these questions and much, much more can be found in Kenneth Davis' marvelously entertaining and engaging, Don't Know Much About The Presidents. Each biographical spread is complemented by Pedro Martin's charmingly witty and humorous illustrations that enhance the text and just add to all the fun. With a detailed timeline highlighting important and interesting historical events running continuously along the bottom of each page, Don't Know Much About The Presidents is a treasure trove of fun and information that's perfect for kids 8 and up. So find out which president's good luck charm was a red carnation, and enjoy!

I like this book because it tells me all the facts about the presidents and I love to study presidents. My 14 year old sister needed help with her report on Theodore Roosevelt and Franklin D. Roosevelt and she asked me because she knew I would know some things! I have checked "Don't know much about the Presidents" out of the library and since I have to take it back, my dad said he would buy me my own copy to keep!

This book is a wonderful introduction to learning about the presidents, even for younger children who express an interest. Our five-year-old is a good reader, and can manage much of this book herself. A great one to keep in the back of the car for short (or long) trips. Or pick a president each night to learn about at bedtime. This book is written at a level that can be appreciated by the younger set, but because it's got a sense of humor and some fun facts about each president, will also be enjoyed by older children (and adults!). We're enjoying re-learning about the presidents again with our daughter!

This was OK however rather short. It only pointed out four or five facts about each president with some quaint illustrations plus a time line, and that's all there was to it. Don't expect to learn much

about the Presidents. It's meant for 8 to 12 year olds. I felt the advertisement should have pointed that out.

My 8-year-old daughter has literally memorized this book. I think what's so engaging are the quirky facts and the way they're presented. She has now asked me to get her any books I come across by Kenneth Davis. What more can you ask for: a book that is so educational but one that kids will read over and over, all of their own initiative.

My 3rd grader was learning about presidents in school, so I got her this to supplement her school work with casual reading. She enjoyed it and will still go back and read bits a pieces over again at her leisure. Holds up nice, too. I'm sure it will make through my other two kids as they get older.

We bought this book for our grandchild. My wife, who taught history to high school seniors, couldn't put it down. I also enjoyed it immensely. This is an informative book for any age and a great help in trivia contests.
