Customer Reviews

This book is for kids and tells a little of Nate's life before going to Ecuador and then the story with him being the main character. It's written in poetry (abcb), but it's a story. What I like about this book is that it sheds some more light on why the men were killed- because of some lies told by a couple of the Waodoni young people that made the foreigners look dangerous. This book is published by YWAM. They also put out an activity guide that goes along with three other books. The activity guide (and cd) focuses on character education and includes some great activities (related both to

the story and the country in which the story takes place), music, and coloring pictures. I would very much recommend this resource. My two kids (4.5 and 3) liked it. The reason I gave it 4 stars instead of 5 is that some kids may not really like the fact that it's written in abcb form.

Book arrived in good shape. Book appears to be a good easy read for young readers. Would recommend to others.
