This is a fun book that is loaded with "trivia" about each state. It not only has the state birds, but capitol cities, state flowers, and other state animals when they exist. Some states have lists of famous people. The cheerful and often funny illustrations help identify what each state has within it, like seaside, or farm land or whatever. It could be useful in many ways for kids and their parents who like maps, geography, travelling, etc.

My daughter loves this book and we bought it for her bird loving friend as a gift. Its unique and packed full of funny and informative facts about birds and the United States. Had them both cracking up.

This is a wonderful book! I laughed as I read it. I purchased it for a friend who is a 5th grade teacher. Children will love to have this book read to them and older children can learn about our fifty state birds and other fun facts while enjoying the humor of Hudson Talbot. Acceptance, cooperation and diversity are showcased at the conclusion of The United Tweets of America Pageant. What a hoot of a book. Very highly recommend.

I LOVE the book. I first saw it at the house of one of my grandchildren several years ago. I ordered one for my house and anyone who sees it when visiting is blown away as well. My recent purchase was to give to a 7 year old who read it when visiting with her grandmother. Now she has one of her own for her house!!

This is a really fun book. There is some simple humor that makes it fun for mom to read. The illustrations are great. We like to sit and learn about a few states and their birds at a time. We only make it through 5 or 6 pages at a time because each page has a lot of information to talk about and look at.

I bought this book for a fourth grade boy that was hospitalized. He loved it. Lots of great information about each state and state bird. Done in a fun way. Interesting and fun facts presented...The adults liked it as much as he did. It's a keeper.

A friend first showed me this book and I knew immediately I needed to order it for my 6 year old granddaughter. I was glad she loved it as much as I did. We have read the entire book several times and she loves to name the states and their bird. Such a fun informative book ! We had out- of- town company this weekend and once they picked it up they couldn't put it down. They are wanting a copy of their own !

All ages of reader will enjoy this whimsical yet factual parade of state birds which provides a 'competition' featuring them all. Funny state trivia accompanies high humor and whimsical drawings in a fun blend of history, natural history, and lively discussions perfect for grades 4 and older.
