## Customer Reviews

I ordered this book based on all its' glowing reviews. I was a little disappointed when it arrived though. It's very small... yes... good for throwing in your purse etc.. but the flaps inside are also very small. Too small for my 11 month old to use, and a little difficult to find. I'm still going to give it four stars. The illustrations are very colorful and fun. The location of the flaps with-in the pictures is very well done... it's just a shame they are so small. I'm sure my son will really enjoy this book in 5 months or so.\*\*\* For a better young age appropriate lift the flap book, try "Hide and Seek Farm", by Grandreams books. This book is a little bigger, but the card board flaps are huge, and the illustrations simple and colorful. My sons loves this series! (Hide and seek Ocean, Forest, Farm, Pets, Jungle, and Polar)

This is a great little board book. My nephew loves the smaller books that fit in his tiny hands and the peek-a-boo feature makes it even more exciting for him.

Well, I managed to purchase an item that was 24.99 from .. one freaking penny more and it's free

shipping... Well, I've made a bit of an effort to help expand my son's choices of books to read before bed-time so I chose this book to meet my \$25 minimum. He loves the interaction and has chosen it 4 of the past 5 nights for his bed-time book. I'm sure it's just a matter of time before he moves on to a new book, but for right now... it seems to be the book of the moment. The book would be good for a child in the pre-reading age and may not be good for a child who lacks some finer motor skills. The content is nice and allows he and I to interact and prompts questions about various farm animals. It's amazing how... when you try... almost any book can promote educational benefits... even one about farm animals. I'd definitely buy this book again.

This book is a favorite with my 21 month old. We got it when she was 18 months old when she already had many animal books. But she always goes back to this one. It has great illustrations and is sturdy, flaps aren't easily wrecked. She shakes her finger at the goat biting on the sock ("no, no bite"). We now 'knock' on the doors before we open them, so it is new all over again to her. She is speech delayed so it is great hearing her try to say 'cockadoodledo'.

I bought this book for a Christmas gift for my grandson and was about to wrap it and noticed that the cover was not attached properly to the spine. Obviously a mistake when it was put together by the manufacturer. Random House Disappointing

This book was loved by all my kids at around 1.5 years on up. Get a few copies as toddlers can be rough with the doors and they eventually do fall off. I give this book as a gift as well when friends have babies. Kids always love to see animals and hear animal sounds. It is no wonder this book is popular!

I gave this book 5 stars because if you manage your expectations, it more than delivers. At 4"x4", it is small, compact, light and portable--great for a NYC mom like me who carried it with me everywhere we went during the 9 month-2 year period of my son's babyhood. It was great at simultaneously demonstrating the lift-the-flap book concept and introducing farm animals and their sounds to babies. As my son grew older, (as kids do with their toys and books), his relationship and engagement with the book evolved as well and I found him thoroughly enjoying not only the flap-lifting, but also combining reading of the book with intermittent breaks of "Old McDonald" stanzas. For a small book, it has a lot of punch.

It was smaller than my 2 year old's usual books but it was the perfect size to put in a bag when we go out. It keeps her busy when sitting down and traveling. This is perfect for little kids who likes animals and saying their different sounds. The quality is very good and does not easily get torn. It also has a good list of animals you would usually find in a barn(Cow, Pig, Chick, Pony, Duck, Goat, Dog, Cat, Rooster, Owl). It has great colorful illustrations.This is definitely a good value for the price. Totally worth it.
