Customer Reviews

My daughter and I love this book! *Lion King* was always one of my favorites when I was little, and now it's one of hers too. This book went beyond my expectations. It has the real voices from the movie playing the characters and has sound effects and music in the background. It certainly is worth the 6.99 charges for it!

Like other reviewers have said -- it would have been SO much better to have some of the fantastic music from the movie. My kids like it, but they are little and are frightened of the scary pics. Also, since mine are little, I wish the pages were a little thicker...not looking for a board book, but these pages seemed really thin and more likely to tear with normal 2 & 4 year old use.

The narrator is very good. Chime sound to tell you to turn pages. Voices from movie. Unfortunately the book and pages are very thin and stick together, making it easy to rip. These are not the same

Disney read along as the 80's.

I got a ton of these Disney CD Read Along Books for my first grade listening center. My kids really love them since many of my students are already familiar with most of these stories. This seller was better than others.

These stories are good, and the CDs give great sound effects from the film, but they run so long that the kids get bored of hearing it before the book is finished. They should cut about 5 pages from the length because the age group these books are meant for is very young, and the book is way too long for them.

Gave this to my three year old granddaughter for Christmas. She loves the Lion King and has many of the characters in stuffed animals. Now she sits happily in her chair in her room and holds her friends and reads along as she listens to the story. Great learning device and most entertaining!

I'm disappointed that it doesn't have ANY of the Lion King songs included in the read-along, but I guess it's my own fault for not thoroughly reading the item description before purchasing. My kids (4.5 years and 2 years) still like to listen to it when in the car, but had I known beforehand that there was zero music (just reading), I would have looked for something else.

My 2 year old grandson loves The Lion King. I took a chance on ordering these that he might be too young for the book. HE LOVED IT!! It seems he wants grandma to help him "read" it every time he visits. It seems he thinks Grandma is reading it instead of the CD. What a great concept - a talking book for children. Try it, you will like it.
